BRIGHT MOTORS

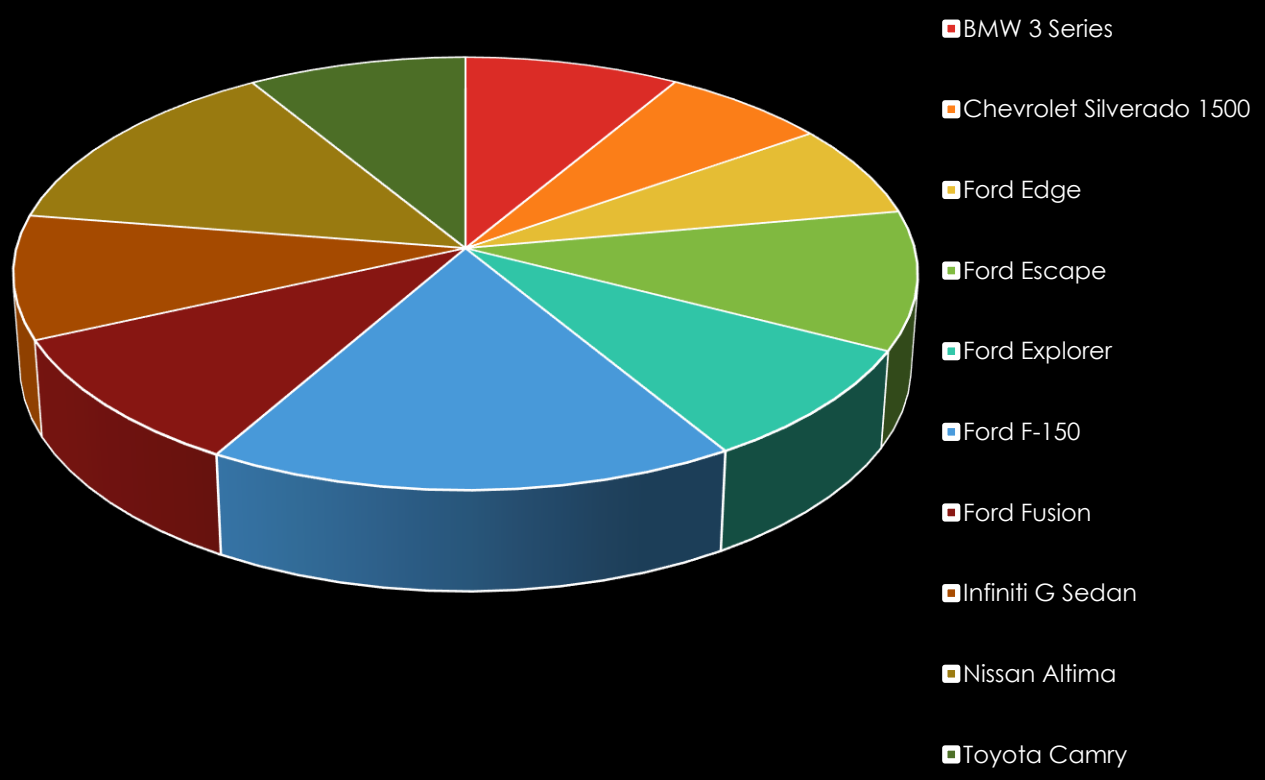
Presented by Junior Data Analyst:
Andiswa Asanda Mchunu

UNDERSTANDING THE DATA.

SALES	DATES
TOTAL SALES 558 811	SALE DATES FROM 2014 TO 2015
TOTAL REVENUE $7606 012 287,00	MANUFACTORED FROM 1982 TO 2015

MOST SOLD CAR MAKES AND MODELS.

top 10 car makes and models generate the most revenue



1. Ford leads the market

5 of the top 10 models are Fords
Strong mix of trucks, SUVs, and sedans

2. Trucks & SUVs dominate revenue

Ford F-150 and Chevy Silverado 1500 = high price + high volume
Ford Edge, Escape, Explorer = popular SUVs driving steady revenue

3. Sedans play a smaller role

Only 3 sedans in top 10: BMW 3 Series, Nissan Altima, Toyota Camry
BMW stands out due to premium pricing

Final insight:

*Revenue follows **high-volume trucks/SUVs** and **premium-priced sedans**, not just unit sales.*

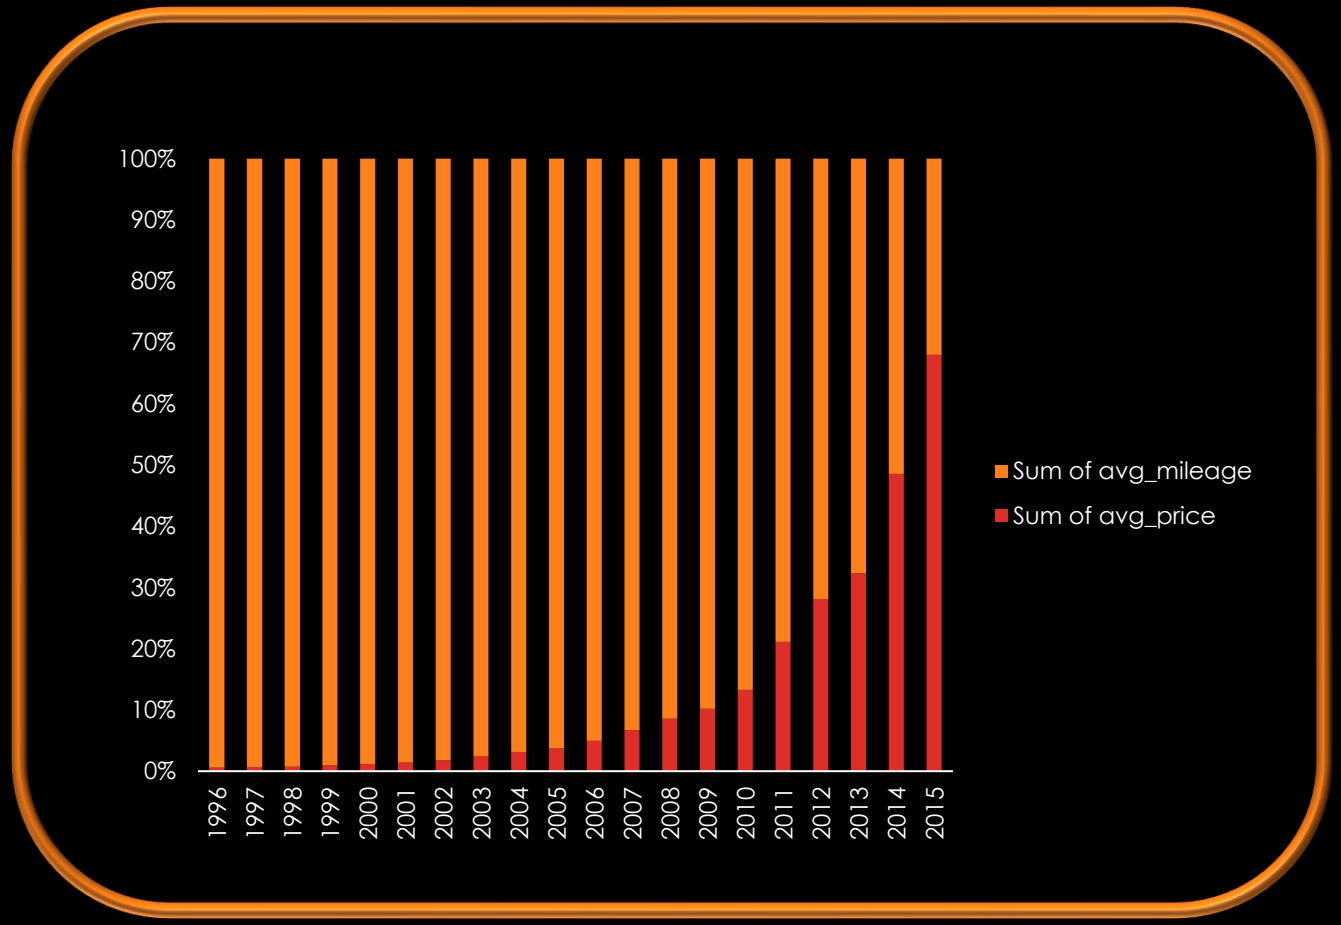
THE RELATIONSHIP BETWEEN AVERAGE PRICE, MILEAGE, AND YEAR OF MANUFACTURE

Key Trends:

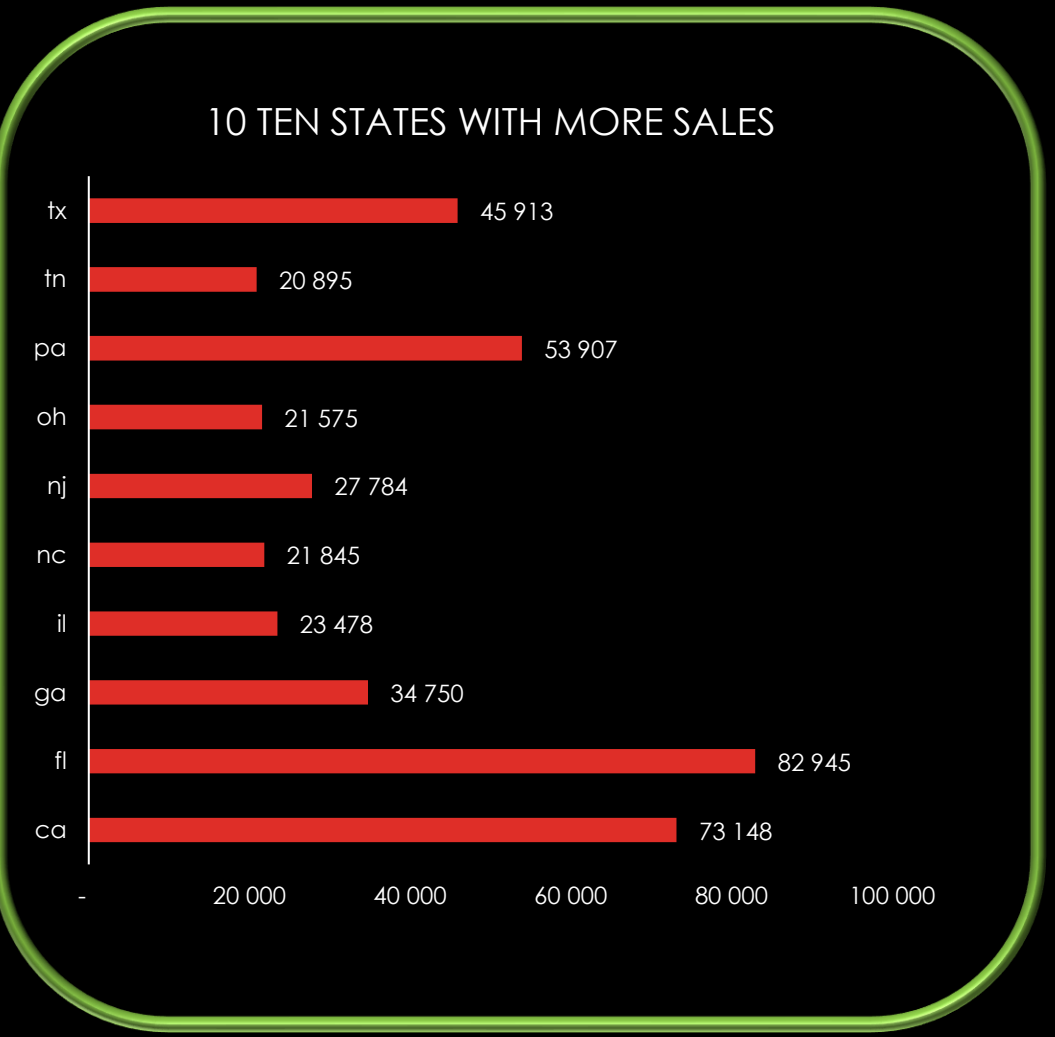
- **Price rises sharply over time**
  - From ~$986 (1996) → ~$25,966 (2015)
  - **+2,500% increase** over 20 years
- **Mileage declines consistently**
  - From ~165k miles (1996) → ~12k miles (2015)
  - **-93% reduction** in avg mileage
- **Inflection point around 2011–2012**
  - Price jumps above $15k
  - Mileage falls below 60k miles.

CONCLUSION:

newer cars → higher price → lower mileage
older cars → lower price → higher mileage



TOP 10 LOCATIONS WITH THE HIGHEST SALES VOLUMES



🥇 **Highest Sales: Florida (FL)**

82,945 sales

Florida has the **highest car sales volume**, making it the strongest market in the dataset.

REASONS:
•Large population
•High dependence on cars (limited public transport)
•Strong resale activity (tourism + mobility)

🔻 **Lowest in Top 10: Tennessee (TN)**

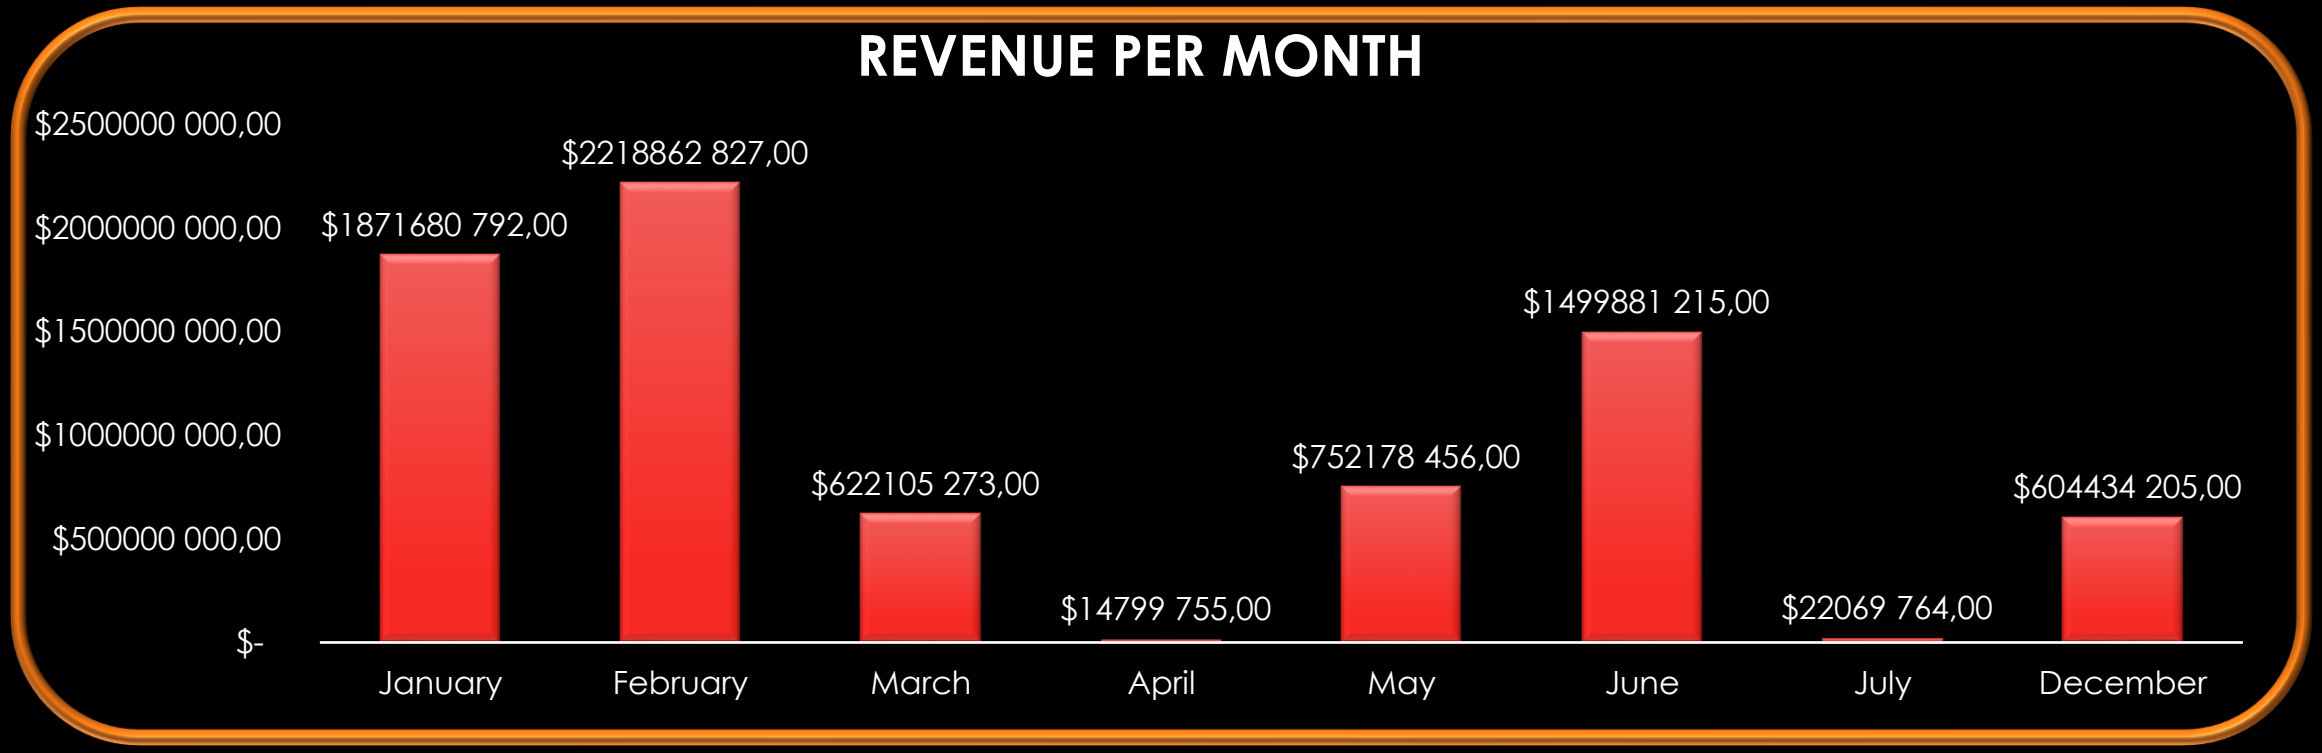
20,895 sales

Tennessee has the **lowest sales volume among the top 10 states**, indicating relatively lower market activity.

•REASONS
•Smaller population compared to top states
•Lower overall demand

Car sales are highest in densely populated and economically strong states like Florida and California, while smaller markets such as Tennessee show comparatively lower sales volumes.

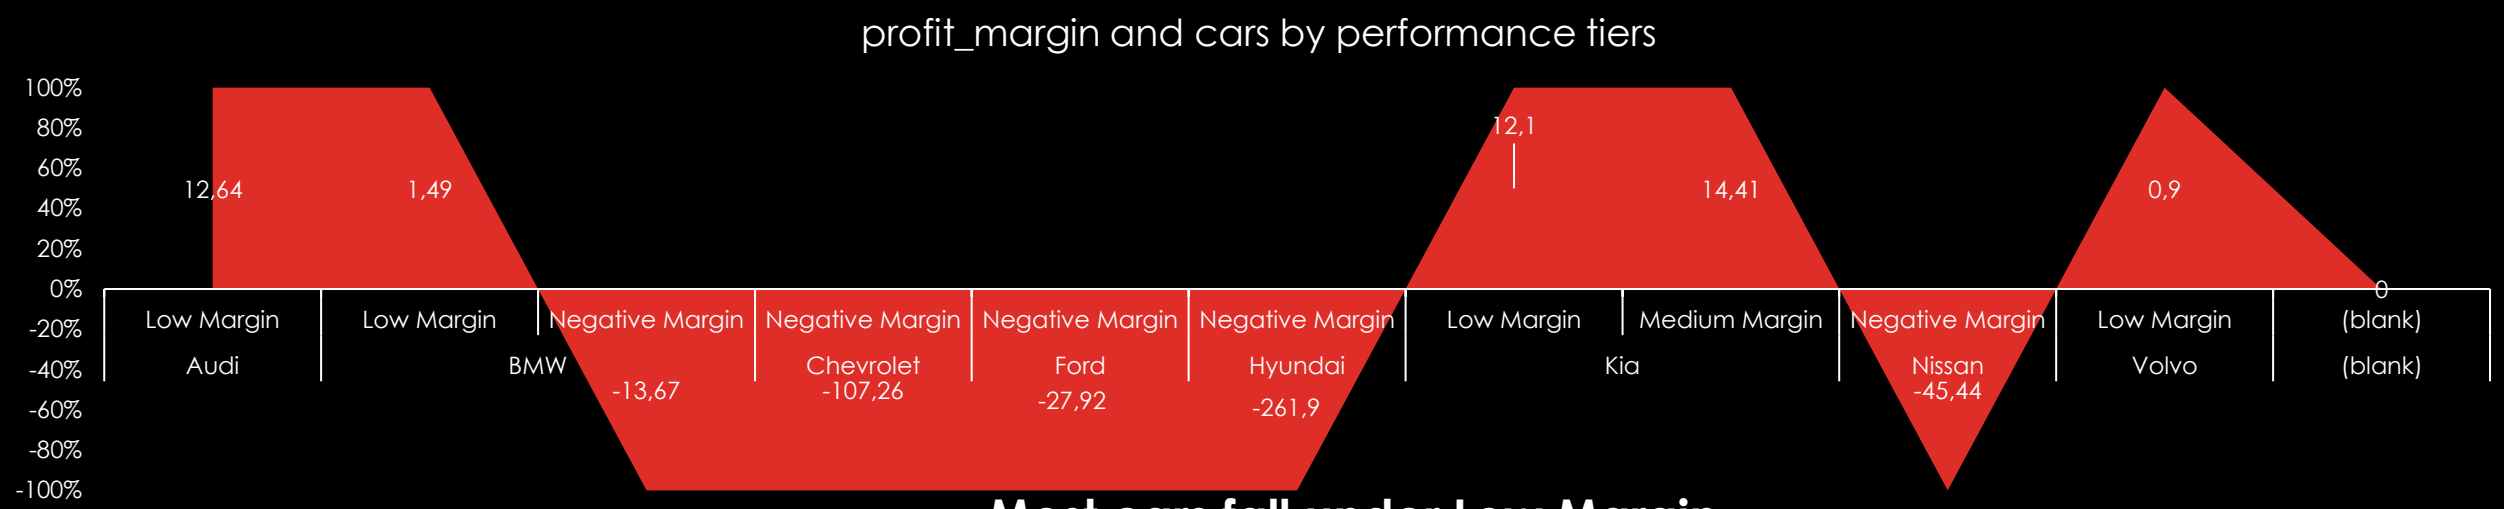
SELLING PRICE TRENDS OVER TIME



Highest: FEBRUARY– Post-holiday clearance + tax refunds + fleet purchases.

Lowest: APRIL – Post-tax payment pause + no major sales holidays.

PROFIT MARGINS



Most cars fall under Low Margin

👉 Brands like **Audi, BMW, Kia, Volvo** are mostly in *Low Margin*

Insight:

The majority of vehicle sales generate **small profits**

Possible reasons:

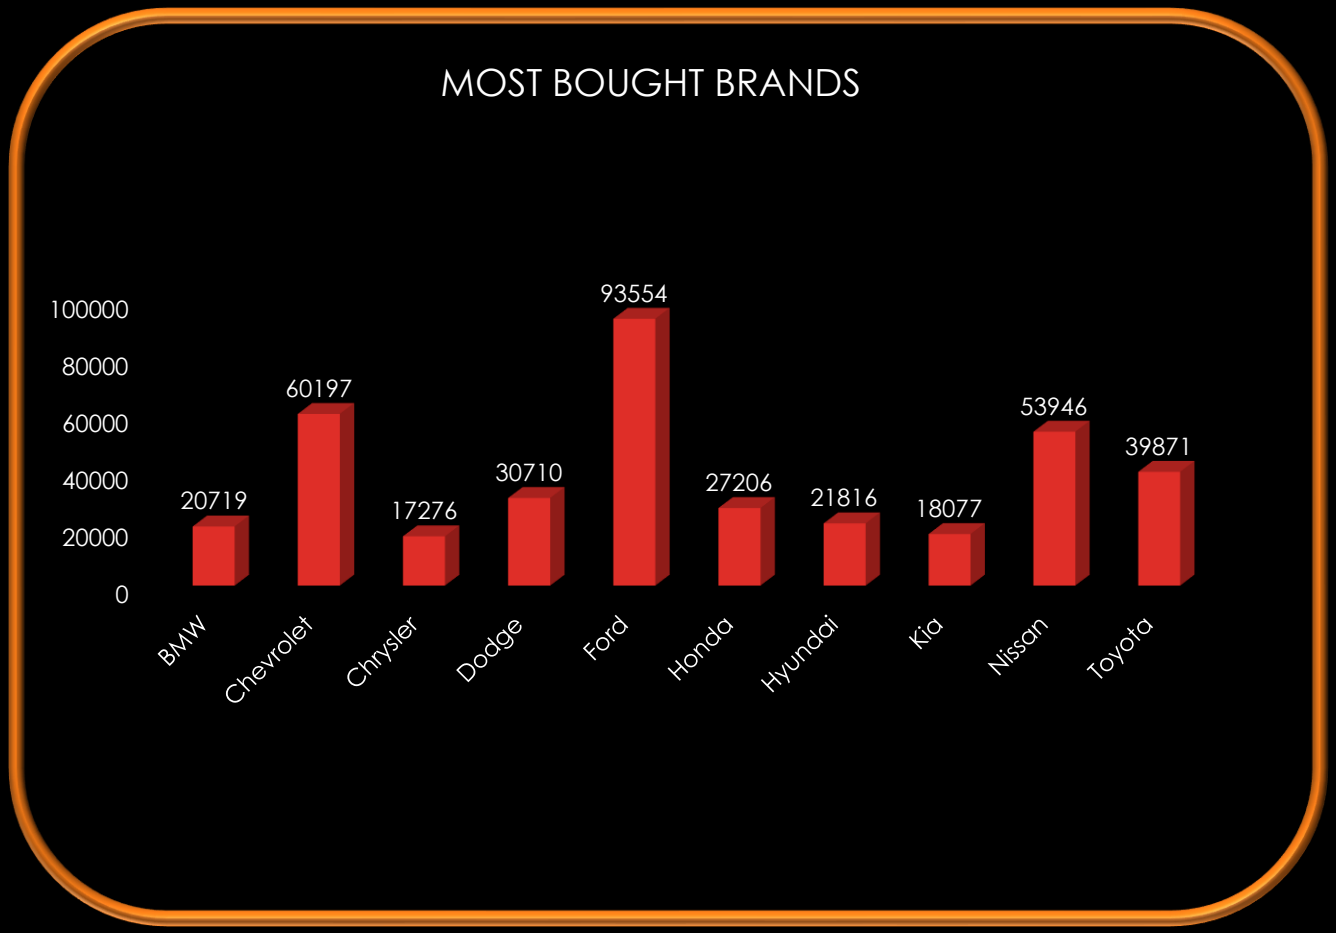
•Competitive pricing in the market

•Dealers pricing close to market value (MMR)

•High competition → lower markups

EMERGING TRENDS IN CUSTOMER PURCHASING PREFERENCES BY NUMBER OF SALES

BRAND SALES

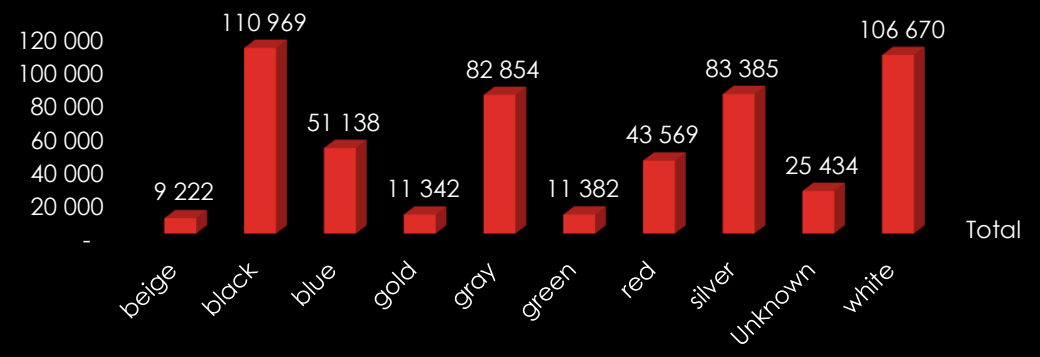


Top brands drive volume.
Likely **Toyota, Honda, Ford, Chevrolet** lead the chart (common in sales data).

Bottom brands have niche loyalty.
Chrysler, Dodge, BMW, Hyundai, Kia, Nissan fall behind.

Toyota, Honda, Ford, and Chevrolet are the most bought brands due to reliability, affordability, and strong dealer networks. Brands like Chrysler and Dodge have smaller market share, while BMW sells fewer units but at higher prices.

MOST PREFFERED COLOR



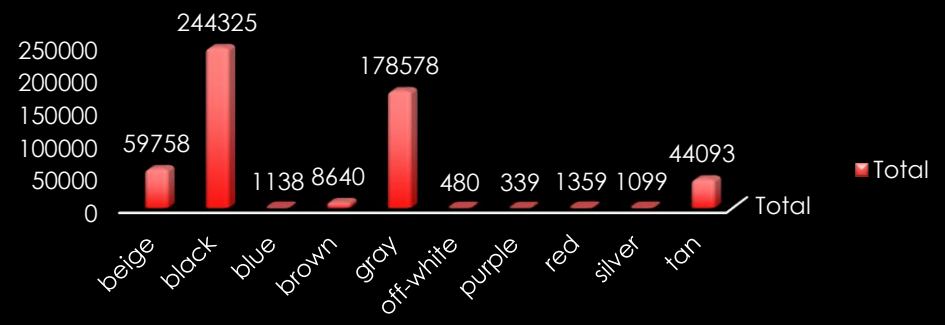
Basic / standard interiors are preferred far above premium or unusual options.

Reasons:

- **Lower cost** – Buyers prioritize affordability over luxury trims
- **Durability** – Cloth wears better than leather in hot/cold climates
- **Maintenance** – Light or unusual interiors show stains and wear quickly
- **Fleet sales** – Commercial buyers choose basic interiors only

Premium interiors (leather, two-tone, red/white) have much lower volume – niche luxury buyers only.

MOST PREFERED INTERIORS



Neutral colors (white, black, silver, gray) are preferred by a large margin.

Reasons:

- **Higher resale value** – Neutral colors appeal to more used car buyers
- **Lower maintenance** – Hide dirt and minor scratches better
- **Fleet & rental demand** – Companies buy neutral colors in bulk
- **Personalization risk** – Bright colors feel dated faster

Rare colors (yellow, green, orange, purple) sell very poorly – stock only on special orders.

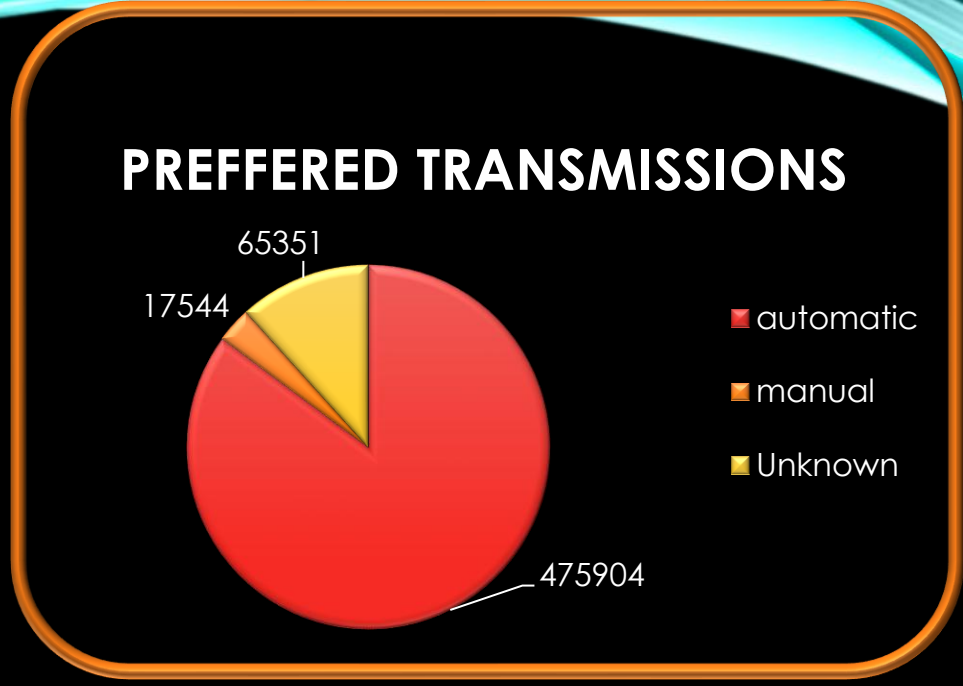
Budget is the clear winner – 99.9% of sales fall in this range.

Mid-range, Expensive, and Premium together make up **only 0.1%** of sales.

REASONS:

Affordability – Most buyers prioritize low monthly payments

High interest rates – Makes expensive cars less accessible



Automatic transmission is overwhelmingly preferred (~85% of known responses).

Reasons:

•**Ease of use** – Stop-and-go traffic makes automatics more convenient

•**Fuel efficiency** .

•**Resale value** – Automatics have larger buyer pools

•**Availability** – Fewer new cars offer manual options

"Unknown" includes **other transmission types** such as: **CVT, DCT, EV single-speed AND Semi-automatic.**

KEY FINDINGS AND STRATEGIC RECOMMENDATIONS

KEY INSIGHTS

- **Revenue Drivers:** Total revenue reached **$7.6 billion**, largely driven by **Trucks and SUVs** (like the Ford F-150 and Chevy Silverado), which combine high price points with high sales volumes.

- **Market Hotspots: Florida** is the strongest market with over 82,000 sales due to high car dependence, while Tennessee represents the lowest volume in the top 10.

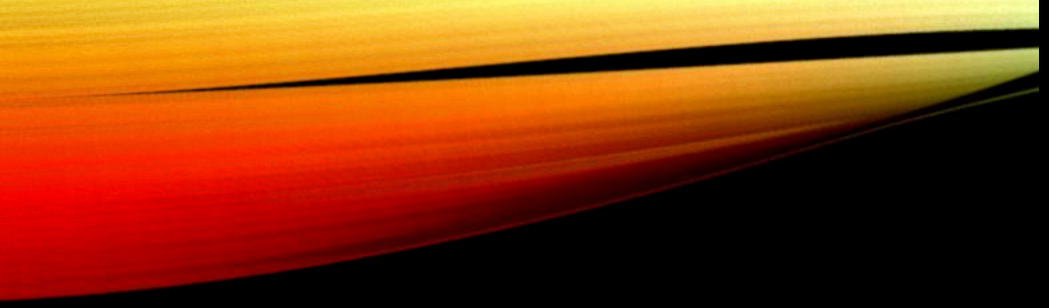
- **Consumer Preferences:** Buyers overwhelmingly prefer **budget-friendly vehicles (99.9% of sales)**, neutral colors (White, Black, Silver) for resale value, and **automatic transmissions (85%)**.

- **Profit Challenges:** Most vehicle sales currently fall into the **"Low Margin" category**, suggesting high market competition and a need for more effective brand differentiation

RECOMMENDATIONS FOR GROWTH

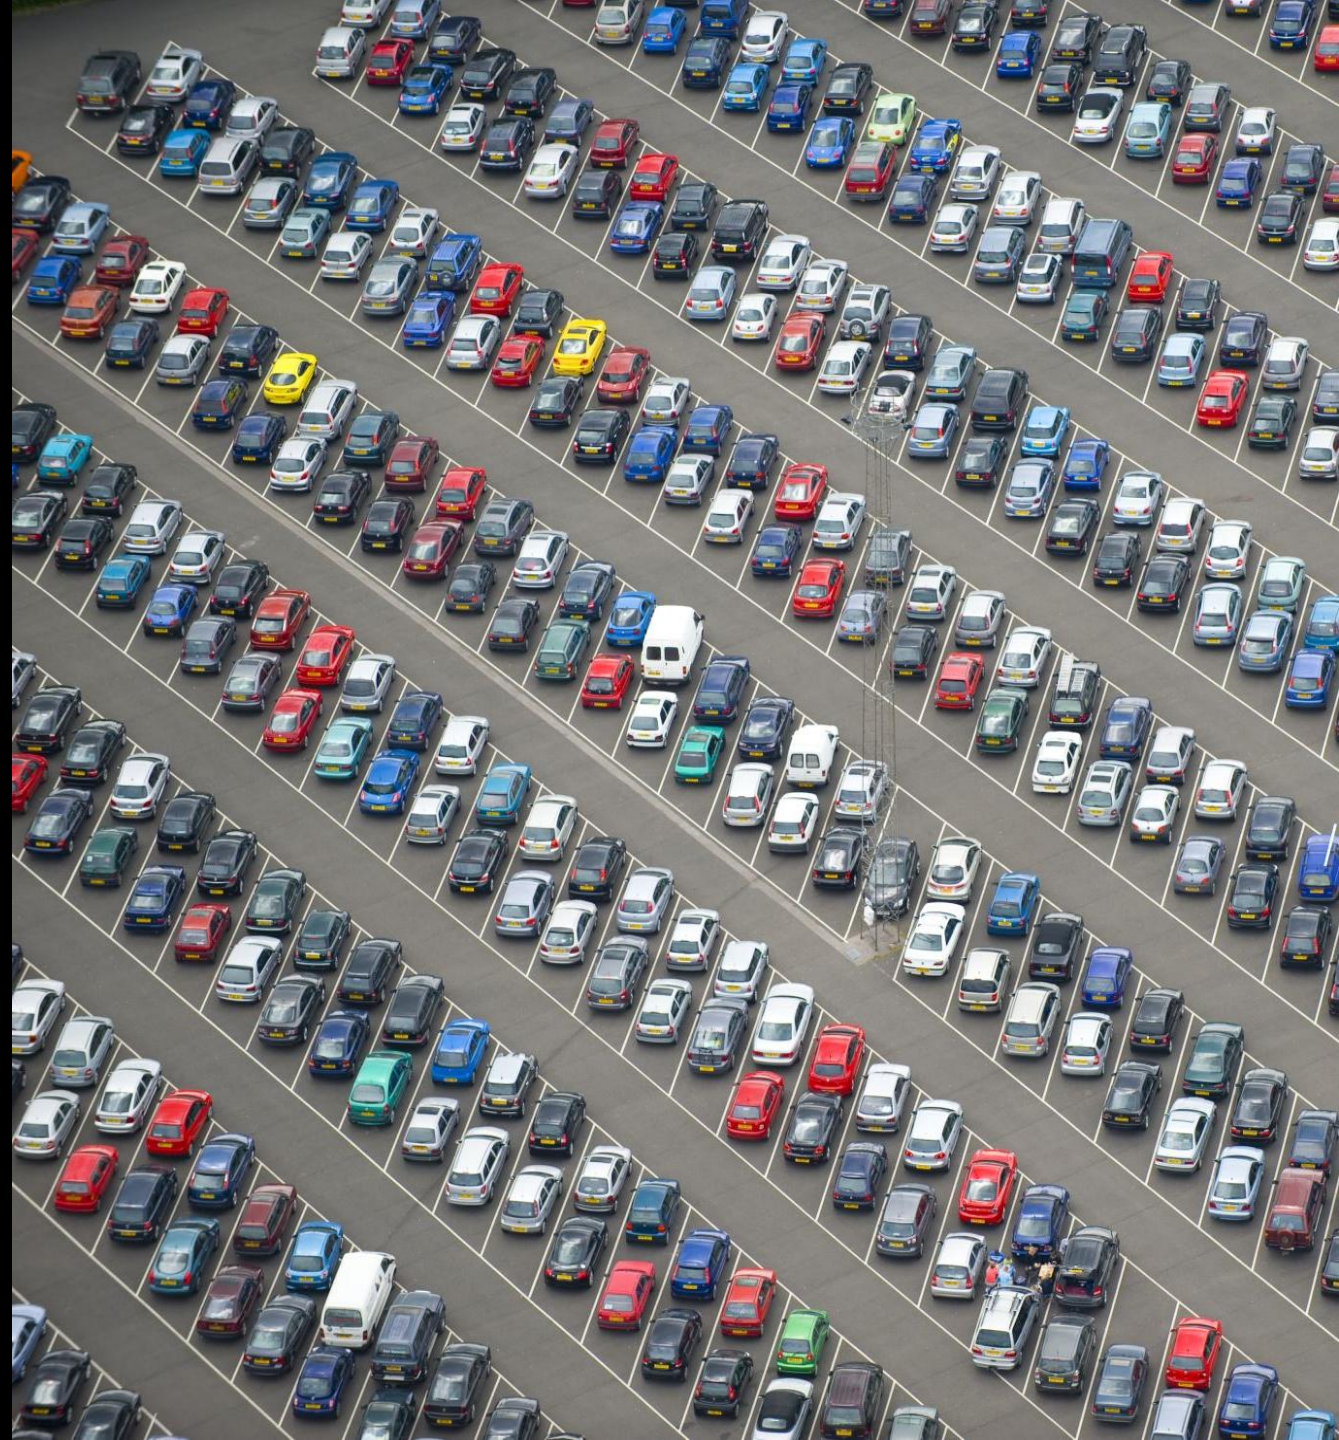
- **Influencer Partnerships:** Collaborate with **social media influencers** to join car dealerships for "day-in-the-life" content and vehicle reviews. This builds trust with the budget-conscious demographic and showcases the reliability of top brands like Toyota and Ford.

- **Omnichannel Advertising:** Launch **targeted TV advertising campaigns** and digital spots focusing on the "reliability and affordability" of the inventory. Focus heavy spend in **high-performing regions like Florida** to maintain dominance and in Tennessee to capture untapped market share



- **Inventory Optimization:** Prioritize stock of **automatic, neutral-colored Trucks and SUVs**, as these align with the clear emerging trends in customer purchasing preferences.

- **Enhanced Dealership Experience:** Deploy specialized staff to highlight **total cost of ownership and resale value**, addressing the primary concerns of the 99.9% of buyers in the budget segment.



THANK YOU
